

Opticomm Residential information

The below provides the relevant and quick information about Opticomm Residential FTTP. Axecom's via delivers high-speed asymmetrical Internet via the OptiComm network. Asymmetrical speeds this means that your upload and download speeds will be different. You can upgrade or down grade speeds for a fee.

OptiComm bandwidth speeds are denoted as the maximum port speed, the actual speed you will achieve could be different due to a number of factors including but not limited to, the type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by Axecom. Please not devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. Axecom does not guarantee you will get the maximum port speed.

Internet services provided by Axecom via Opticomms network include unlimited data usage however, a fair use policy applies that is designed to protect the integrity of the carrier network. Examples of a fair usage breach would include but not limited to, re-selling without written consent of Axecom, promote or threaten violence towards anyone, create a risk to the health or safety of any person, using your service in a way that interferes with or poses a risk to our network or other customer's services.

Please note that any speeds of 100 or above require FTTP (Fibre to the Premise).

Charges and Billing

Pro-rata billing applies on the initial connection date to the end of the calendar month.

The maximum monthly plan charge associated with an OptiComm connection will depend on the service plan you are subscribed too. Please note a once off Set Up fee of \$99.95 inc.GST applies in the total minimum cost. The maximum plan charges are as follows:

Opticomm Plan	Monthly charge inc.GST	Total Minimum cost inc.GST
OptiComm 50/20	\$79.95	\$1069.35
