

Business Fibre EE via NBN Enterprise Ethernet information

The below provides the relevant and quick information about Axecom's NBN EE named FIBRE EE via FTTP. Axecom NBN is backed with the Axecom Business Support. Axecom NBN is based on symmetrical speeds this means that your upload and download speeds will be different. You can upgrade or down grade speeds for a fee.

NBN EE bandwidth speeds are denoted as the maximum port speed, the actual speed you will achieve could be different due to a number of factors including but not limited to, the type/source of content being downloaded, hardware and software configuration, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by Axecom. Please note devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. Axecom does not guarantee you will get the maximum port speed.

NBN EE services provided by Axecom include unlimited data usage however, a fair use policy applies that is designed to protect the integrity of the carrier network. Examples of a fair usage breach would include but not limited to, re-selling the Axecom NBN without written consent of Axecom, promote or threaten violence towards anyone, create a risk to the health or safety of any person, using your service in a way that interferes with or poses a risk to our network or other customer's services.

Charges and Billing

Pro-rata billing applies on the initial connection date to the end of the calendar month.

The maximum monthly plan charge associated with a NBN connection will depend on the service plan you are subscribed too. Please note a once off Set Up fee of \$109.95 inc.GST applies in total minimum cost. The maximum plan charges are as follows:

| Business NBN Plan -FIBRE EE | Monthly charge inc.GST | Total Minimum cost inc.GST |
|----------------------------------|------------------------|----------------------------|
| MAKE THE CHANGE TO FIBRE | | |
| FIBRE EE 200 | \$494.95 | \$18,364.97 |
| FIBRE EE 500 | \$659.95 | \$24,307.97 |
| NBN EE 1000 | \$989.95 | \$36,187.97 |
| NBN EE Connection Fee (once off) | | \$549.95 |

Contract Length & Early Termination

All of our Business NBN Enterprise Ethernet plans have a minimum contract term of 36 months. 30 days notice must be given if cancelling outside the contract terms.

Should you choose to cancel your service within the contract period an Early Termination Fee will apply. The fee is based on :Remaining months X Monthly Fee plan = Early Termination Fee payable to Axecom to release you from your contract and services associated with Axecom.

Hardware

All routers purchased either independently or Axecom's standard gigabit router are at the client cost.

Any cabling that is required in your premises beyond the network boundary point is the client responsibility and will not be covered by Axecom .

Additional charges

The table below outlines any additional charges that may be applicable with the installation and support of Axecom Business NBN

Our service provisioning team will confirm in writing prior to installation or onsite support the additional charges required, should they be applicable to your NBN service, before proceeding.

| Additional charge description | Price inc.GST |
|--|---------------|
| New Development connection fee | \$330.00 |
| TP Link Router- Standard | \$189.95 |
| Premium Router- | \$895.00 |
