

LightningBroadband Residential information

Lynham Networks uses a combination of both Fibre Network and high-speed wireless technologies owned by Lightning Wholesale (the wholesale business unit of Lynham Networks Pty Ltd) and its providers, to enable eligible premises to get internet connectivity delivered to the network boundary (data point or network termination device) of your property. Any cabling or equipment in your premises beyond the network boundary is your responsibility.

For FTTB deployments, we may use cat 6 or similar cabling from the building basement to the data point in your premises to deliver the service. Preinstalled Wi-Fi enabled equipment may support up a certain speed, above which the use of a router may be advisable. Wi-Fi coverage may also vary.

Eligible customers can also choose to include a Voice over IP (VoIP) phone service, offering great call rates and inclusions depending on your choice of VoIP Plan at an additional charge. The Axecom (Lynham Networks) service is only available within a Lightning Wholesale ready service area and subject to Infrastructure availability at premises.

Residential plans are only available to non-ABN holders. ABN holders can choose from one of our great Business Plans. Please refer to our Fair Use Policy for further details.

Plans are subject to availability and actual speeds may vary and may be slower than the upload and download speeds shown due to multiple factors including but not limited to, type/source of content being downloaded, hardware and software configuration and performance, property layout and building materials, the number of users simultaneously using the network and performance of interconnecting infrastructure not operated by Lynham Networks. Devices connected by Wi-Fi and Powerline Adaptors may experience slower speeds than those connected by Ethernet cable.

Fair Use Policy

You can monitor your internet usage by logging into your Account online at: <https://www.axecom.com.au>

Service must be used in line with our Fair Use Policy, and may be subject to suspension or cancellation if used in an unreasonable or fraudulent manner.

Cooling off Period

If you are offered the service unsolicited, you have a 10 business day cooling off period pursuant to Australian Consumer Law and are free to cancel within that period. If you cancel the service during the cooling off period, we will refund the cost of any router shipped to you only if it is returned in good condition with the original packaging.

Contract Length & Early Termination

All of our Lynham Networks Residential plans have a minimum contract term of 12 months. 30 days notice must be given if cancelling outside the contract terms.

Should you choose to cancel your service within the contract period an Early Termination Fee will apply.

The fee for early termination is \$280 inc. GST

Hardware

The charges exclude provision of a compatible router. You can connect with your own compatible router which will also need to be Wi-Fi and/or VoIP enabled. Alternatively, Axecom can provide you with a fully configured, unlocked router with warranty for a one-time fee as tabulated below. If you supply a router, configuration is your responsibility. We may assist you with its configuration, but we are not responsible for its operation or performance.
